

Every Child Ready Professional Learning Program

The Every Child Ready professional learning program provides customized and intensive adult-focused learning designed to enhance instructional quality through research-based best practices. This program includes:

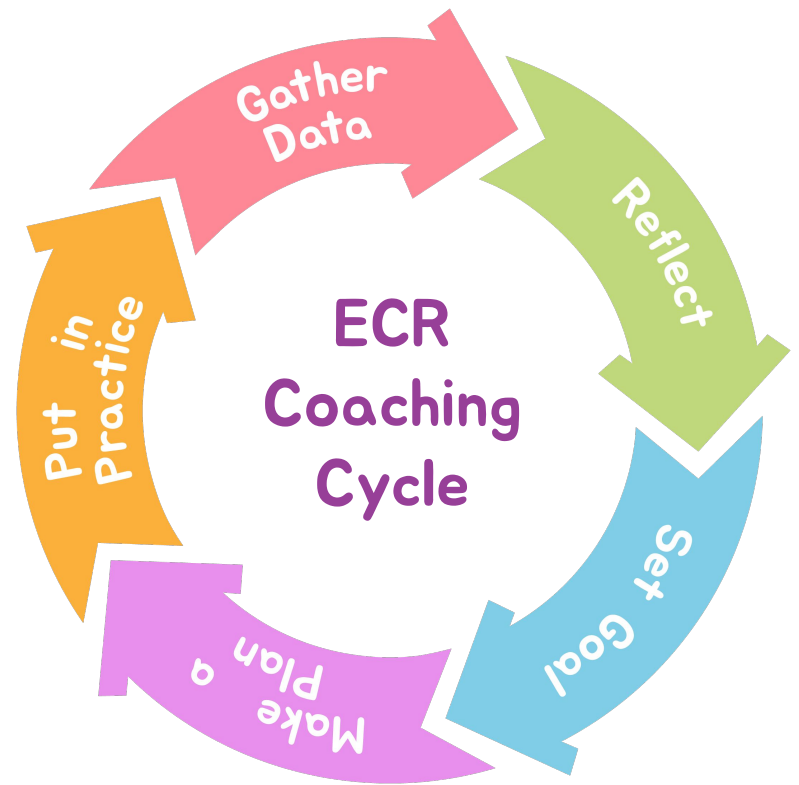

Differentiated Coaching
for Teachers

Professional Development
Workshops

Digital Learning
Resources

Differentiated Coaching for Teachers

Every Child Ready offers optional coaching for both early childhood pedagogy and implementation of the Every Child Ready model. Schools can opt to have classroom coaching from an Every Child Ready specialists or leaders can use ECR resources to coach and support on their own. However, first year ECR implementers benefit from leader coaching. Other resources include coaching tools and annual progression.

<p>Coaching Dashboard</p> <p>Place to document all observations and data for the ECR coaching cycle</p>	<p>Tier 1 Observations</p> <p>Tools used to capture child-teacher interactions and child behavior for differentiated coaching</p>	<p>Attribute Checklist</p> <p>Observational tool to monitor instructional practices and strategies throughout day</p>
<p>Coaching on Social-Emotional Learning</p> <p>Resources for coaches and teachers including the Calming Space Checklist</p>	<p>Instructional Rounds</p> <p>Teachers observe other ECR classrooms in action</p>	<p>Blended Coaching</p> <p>Combination of face-to-face and virtual coaching blended with digital resources</p>

Professional Development Workshops

Every Child Ready experts deliver face-to-face workshops designed for teachers and leaders in early childhood pedagogy and the implementation of Every Child Ready.

Summer Institute

First-year users of Every Child Ready receive training on early childhood pedagogy and how best practice is embedded in the ECR model.

Empowering Quality Instructional Leaders (EQIL) Learning Series

Leaders participate in a summer training and have the opportunity to come together throughout the year to participate in problems of practice

Site-based Professional Development

Every Child Ready specialists work with leaders throughout the year to design and deliver customized sessions for teachers

Digital Learning Resources

Teachers and leaders have access to online professional learning resources through the online platform.

Online Courses

Online courses and digital resources focused on early childhood pedagogy and content, as well as how to use the *Every Child Ready* model

Professional Learning Collection

Series of turnkey training packages leaders can modify and use during site-based professional learning opportunities

FACILITATOR'S GUIDE

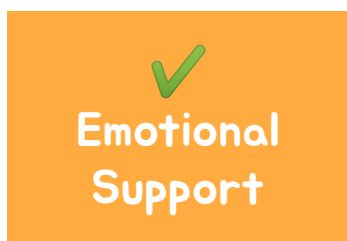

LEARNING WORKBOOK

Every Child Ready Improves Teacher Practice!

After implementing just the first unit of *Every Child Ready*, teachers showed improvements in all CLASS domains and these improvements were significantly greater than those in a comparison group of classrooms using other curricula.

Teachers in *Every Child Ready* classrooms make significant improvements in quality throughout the year. CLASS scores indicated quality teacher-child interactions are typically in the moderate to high range in *Every Child Ready* classrooms. These scores are higher than averages reported in the CLASS manual (Pianta, La Paro, & Hamre, 2008).

Every Child Ready CLASS Performance
