

# OUR IMPACT

Since 2017, The Arthur Project has provided therapeutic mentoring services to underserved middle school youth. Clinically trained mentors work with students and their families to improve academic engagement, strengthen family relationships, and set and achieve goals together.

We provide services to students in three ways:

1. Individual, school-based and virtual counseling sessions
2. Small after-school groups
3. Saturday community based activities and events where we are active in both the Bronx and in Brooklyn, NYC.
